Mr. Dave Coopman
Export Packaging
8201 West 42nd Street
Rock Island, Illinois 61201

Dear Mr. Coopman:

On November 5, 1981, a representative of the Illinois Environmental Protection Agency (IEPA) conducted an inspection of your facility pursuant to an executed Cooperative Arrangement between the Illinois Environmental Protection Agency and the United States Environmental Protection Agency (USEPA). Thus, the inspection was conducted under the authorization of the United States Environmental Protection Agency. The purpose of the inspection was to determine your facility's compliance with the Resource Conservation and Recovery Act (RCRA) of 1976, P.L. 94-580 as amended.

The inspector found that you are a small quantity generator. Therefore, if you comply with the requirements of 40 CFR 261.5 you will be exempt from the other regulations under Parts 262 through 265, Parts 122 through 124 and the notification requirements of Section 3010 of RCRA. Should your status change in the future, please be advised that you would have to comply with Part 262, Standards Applicable to Generators of Hazardous Waste, published in the Federal Register, Vol. 45, No. 98, on May 19, 1980, as amended.

Should you have any questions, please feel free to contact Ms. Pamela D. LoPinto at the above number.

Sincerely,

Robert A. Wengrow
